

KOMFORT PARTITIONS & CEILINGS

# Klassic Veneered partition system

Tactile as well as distinctive, Komfort's veneered Klassic brings character to any office interior. Its simplicity and practicality are assured, however, through its uncomplicated method of build, relocatability and excellent performance qualities.

The vast array of veneers, which may in turn, be co-ordinated with doors, furniture and storagewall, makes certain that every workplace is unique. Combining elegance with function, Klassic's appeal is timeless.

Glazed and solid modules  
combine to produce this  
faceted effect

4 | Classic Veneered Partition System - Komfort Workspace

Klassic

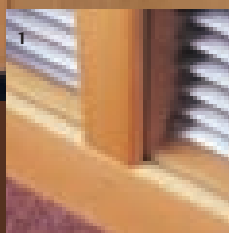

In its solid form Klassic is available in different construction styles. Plasterboards may be taped and jointed to produce a streamlined look or, alternatively, used with cover trims for additional decorative interest. Klassic also accommodates gravity hung plasterboard panels which are pre-decorated for speedy on-site construction. Coloured uPVC or 'Timber Look' infills, used in secret fix trims, may provide contrast. Glazing options including single offset, double glazed, silicone jointed and banded.

One of Klassic's greatest assets is its performance quality. Tests have achieved 30 minutes fire resistance for both insulation and integrity and 45dB (Rw) sound reduction in solid runs.

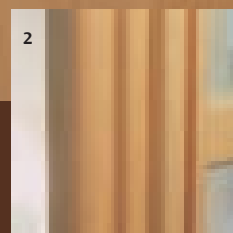

To enhance the beauty of Klassic's natural materials and ensure continuity of finish, all the factory manufactured components are pre-finished in a clear lacquer.

**Banded glazed Klassic in American White Oak**

All veneered panels for corridor and circulation areas to comply with Class 0 Propagation and Class 1 Spread of Flame

1 Air pinned glazing mullion and base detail

2 Door frame to glazing detail

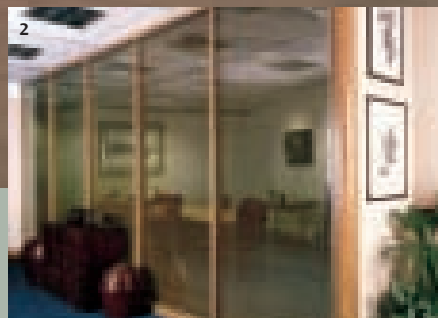

3 Secret fix glazing mullion and base detail

Faceted double glazed Klasic  
creates this spectacular  
Edinburgh meeting room

1 Classic complements the veneered panels in this boardroom environment
